Evidence Binder / Executive Summary

Prepared by: Felix V. Marchetti
Prepared for: M. / legal review
Last edited: Mar 1, 2024 - 11:44 PM
Handling: do not send from student email account

Purpose

This binder documents a controlled-substance prescription pattern connected to Dr. Marcus Adler and Sigma Tau Delta. The attached rotation screenshots show repeated stimulant prescriptions with no ADHD diagnosis or patient-facing indication in the EMR.

Core finding

Finding	Detail
Prescription count	43 prescriptions, Jan 6-Feb 19
Medications	Adderall XR 30mg (27 entries), Vyvanse 50mg (16 entries)
Prescriber	Dr. Marcus Adler, DO
Diagnosis field	No ADHD diagnosis attached in any visible EMR entry
Distribution channel	Sigma Tau Delta fraternity, routed through Tucker Voss

Photos are in Snapchat My Eyes Only. Passcode: 0814. Safe combination: 2-1-1-4.

Prescription Pattern

Rotation database screenshots

Felix captured forty-three entries while assigned to Dr. Adler. The screenshots are saved separately in Photos under the rotation album; the binder summarizes why the entries matter.

Range	Count	Medication	Diagnosis / indication
Jan 6-Jan 21	16	Adderall XR 30mg	Blank / no ADHD diagnosis
Jan 22-Feb 5	11	Adderall XR 30mg	Blank / no ADHD diagnosis
Feb 6-Feb 19	16	Vyvanse 50mg	Blank / no ADHD diagnosis

Concern

The records are labeled as research protocol data, but the patient names remain visible and the consent forms are not attached. Two entries list Tucker Voss as a research assistant even though he has no research affiliation.

This is not one bad chart. It is a repeating process.

Fraternity Link

Tucker Voss / Sigma Tau Delta

Tucker Voss appears in the rotation trail as an informal research assistant and in the house trail as the person controlling access to the basement safe. Felix also found a router setting that blocked file uploads after 23:00 under user tvoss.

Financial record

Record	Value
Sender	Stoneridge Medical Consulting LLC
Recipient	Marcus Adler personal account
Amount	\$48,000
Date	Feb 3
Found	Inside Sigma Tau Delta basement safe

Backup route: u/throwaway_premed31 -> u/M_attorney. Do not rely on school email for final transfer.

Final Binder Page

If this is found after the Plunge

Felix wrote this section separately from the evidence table. It is the instruction page, not the summary.

"If I don't walk out tonight, walk in for me."

If I do not call Monday, the photos are the proof. Start with My Eyes Only, then the rotation screenshots, then the router settings. Brooke did not know the binder existed. Do not let them make this about her.
